

Sub-Processors

Kestra Labs LLC • Last Updated: March 1, 2026

Kestra Labs uses a minimal set of sub-processors to deliver the Service. We provide 30 days advance email notice before engaging any new sub-processor. Zero Trust customers may object within 14 days.

Current Sub-Processors

Sub-Processor	Purpose	Data Processed	Location	Certifications
Cloud Infrastructure Provider	Gateway hosting, compute, storage, encryption	All Customer Data (encrypted)	US / EU	SOC 2, ISO 27001, FedRAMP
Stripe, Inc.	Payment processing and subscription billing	Billing details only — no credentials or audit data	US	PCI DSS Level 1, SOC 2
SendGrid (Twilio)	Transactional email delivery (alerts)	Email addresses only	US	SOC 2, ISO 27001

Note: The cloud infrastructure provider is not named publicly to protect implementation details. Enterprise customers receive the full vendor name under NDA as part of their DPA.
